

## **Goals of Strategic Vision Refresh**

- Forge a common understanding of the challenges and opportunities facing NAGB and NAEP at this moment and in the next five years
- Affirm key priorities to enable the Board to take advantage of these opportunities and meet these challenges
- Deepen conversation and help knit together a common vision between new and veteran members.
- Develop a clear view of how the Board's current activities align to this vision and surface any additional priorities to help achieve the vision
- Create a public-facing document that expresses the Board's vision, goals and priorities in a post-pandemic environment
